Northwest Territories

2001 HELP Directory

Northwest Territories Health and Social Services

103-04135/

Message From the Minister

It is my pleasure as Minister of Health and Social Services to present the 2001 edition of the NWT Help Directory.

This directory is a comprehensive resource tool designed for both health care and social service professionals and all those working in support roles in related fields.

It is our hope that the Help Directory will allow easy access to information from the school counsellor advocating for her students, to the community social worker referring clients to appropriate services, to the physician referring patients to a community home care program.

It is through the efforts of the Department of Health and Social Services and the work of our summer students that we were able to produce the 2001 NWT Help Directory, to enhance better health and well being for the people of the Northwest Territories.

J. Michael Miltenberger
Minister of Health and Social Services

Residential treatment, crisis intervention/-assessment for children aged 7 to 14 who experience social, emotional, behavioural difficulties. Holistic and family/community-based orientation to treatment. The agents of change include the alliance between child and key worker, peer culture influences, group centred treatment. This involves living, working, therapy and skill building groups, a one-to-one psychotherapeutic relationship, educational remediation, familial interventions, and community integration. The program features a culturally relevant approach in addressing the physical, emotional, intellectual, and spiritual needs of individuals and their families.
